

Question: The project has been created using pipenv **You need to execute npm run watch command from the root directory to generate js, and css files...

The project has been created using [pipenv](#)

****You need to execute npm run watch command from the root directory to generate js, and css files which you will see in static folder under src folder**

****You need to create at least three product variant from the variant CRUD before starting the coding test**

the JS source code below

```

window.$ = window.jQuery = require('jquery');
import 'startbootstrap-sb-admin-2/js/sb-admin-2'
import Vue from 'vue';

window.Vue = Vue

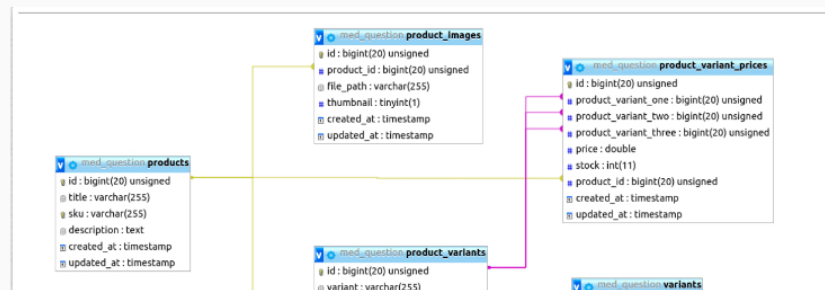

Vue.component('create-product', require('./components/product/CreateProduct.vue').default)

const app = new Vue({
  el: '#app'
})
    
```

Migrate the database

Create a Superadmin from a command-line interface

Check the data flow diagrams. You need to apply this data flow for listing products on the table and insert new products into the database.

Make a list of view page of products table data the same as

Products

Product Title

red

Price Range

From

To

mm/dd/yyyy

#	Title	Description	Variant	Price	InStock	Action
1	Product Name	It's a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).	red / id /	Price: 150.00	InStock: 150.00	<div>Go</div>
	Created at: 18 hours ago		red / sm /	Price: 15.00	InStock: 54.00	
				<div>Show more</div>		
2	Product Two	It's a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).	id / red /	Price: 150.00	InStock: 150.00	<div>Go</div>
	Created at: 1 hour ago		id / green /	Price: 15.00	InStock: 15.00	
				<div>Show more</div>		

Showing 1 to 2 out of 7

<

Make a data summary of the products same as

Showing 1 to 2 out of 7

data_summary

find similar report abuse

Make data pagination of products same as

1 2 3 4

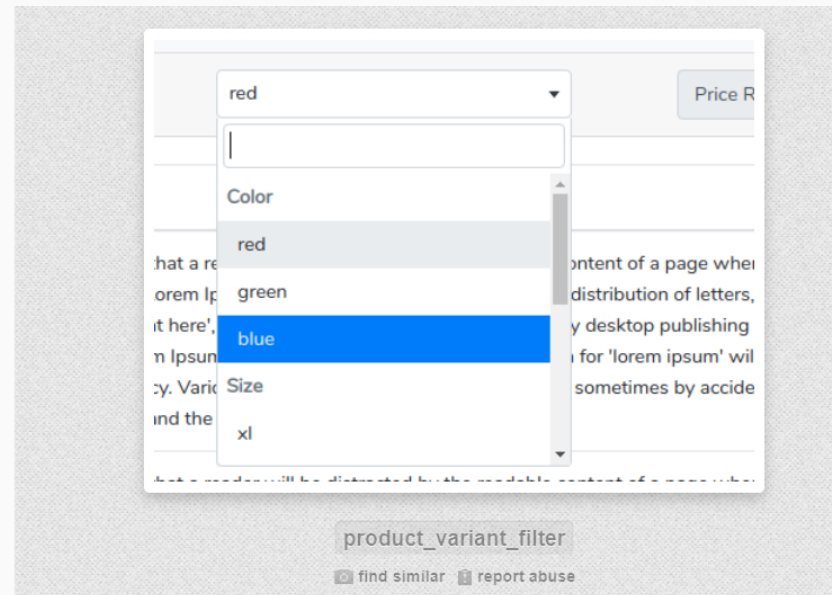

pagination

find similar report abuse

Make a product filter with the product title, product variant, price range, and date

Product Title	red	Price Range	From	To	mm/dd/yyyy	
---------------	-----	-------------	------	----	------------	--

Make sure the product variant data show dynamically and group by product variant table's variant column same as

- (Click on Product and then Create Product from Left sidebar) this page has been designed with vuejs you will find the code in the directory: `src/template/assets/js/components/CreateProduct.vue`.
- You can use any of your favourite JavaScript frameworks.
- Insert data into products, product_variants, product_product_prices and product_images while create a product, check the screenshot:

A screenshot of the 'Create Product' form. The form has several sections: 'Product Name' with a text input, 'Product SKU' with a text input, 'Product Name' with a text input, and 'Description' with a text area. Below these is a 'Media' section with a 'Dropzone' for uploading files. To the right, there is a 'Variants' section with two rows of options: 'Color' (red, green) and 'Size' (xl, xl). Below the variants is a 'Preview' section with a table showing the combination of variants and their prices and stock levels. A red arrow points to the preview section with the text 'This preview part is a combination of variants'.

Data should be loaded as same as given data in the edit product page. And it can be updated

Please submit it as soon as possible and describe every point of code
